

Materials List - 104 Introduction to Painting, Martha Eleen

Oil or acrylic paints in tubes;

NB names of colours vary with different brands of paint. This list represents the most common names for fairly pure, warm and cool tones of each of the 3 primary colours (red, yellow, blue). Pure cadmiums and cobalts are very expensive- buy the hues, they are cheap and mix well. Inexpensive paint brands that don't include cadmium hues will have the same colour under different names, you can pick by comparing the colour to some expensive cadmiums of another brand. *No Liquitex.*

Basic Colours:

- **Reds:** Cadmium red light (hue), Cadmium red dark (hue), Quinacridone Crimson
- **Blue:** Cobalt blue (hue), Ultramarine blue, Phthalo Blue
- **Yellows:** Cadmium yellow light (hue), Cadmium yellow middle (hue), Cadmium Orange
- Titanium White

Brushes: inexpensive, long handled, stiff bristle #2, 3, 4, 6 Bright, #2 Round

Plus:

- canvas paper pad; size: 12" x 12" or larger, or other prepared supports (2 per class)
